Lubrication points on the EVO Wave door

Lubricate recommended is Wd-40 specialist gel spray.

Above is a diagram of the door and the lubrication points on your door system.

Quick Reference guide to your door system

Touch screen operation

When the touch screen is in sleep mode it will be on the EVO logo.
When you touch the screen (with no security active) you will see the up down and stop buttons appear on the screen.

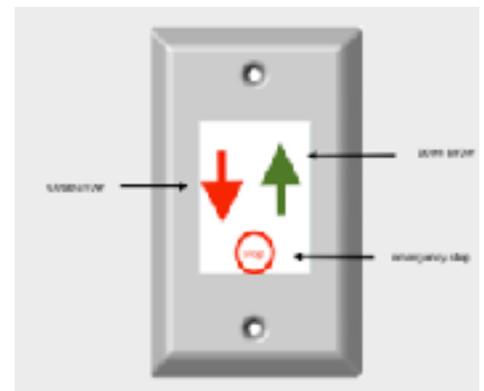

To open the door just touch the up arrow.

To close the door **PUSH AND HOLD THE CLOSE ARROW UNTIL THE DOOR STOPS MOVING.**

This hold close function on the close side is a safety and can not be changed.

If you have / want a security code to access the touch screen

This code must be a 4 digit code. Please Call into our Tech support line at 903-486-3301 and someone will be happy to walk you through the changing/ set up of this code.

There are no approved accessories at this time for this unit other the integrated touch screen and the rfts dry contact interface for the screen integration.

More integrations to come in future upgrades to the controllers.

REGULAR CLEANING:

Follow these steps to clean the powder coating on your door's steel members. If your door has cladding on either side, consult the manufacturer of the cladding to know how best to clean it.

1. Remove residue with a wet sponge.
2. Use a soft cloth and a mild household cleaner to clean the steel members of your door.
3. Rinse the door with clean water.

What Not To Do:

Do not use cleaners that require you to wear gloves because they could damage the powder coating; The damage may not appear for up to twelve months.

Do not use nylon or steel wool scourers on the powder coating.

When you need a replacement parts:

Contact Renlita Doors if you need a replacement part on your door or if your door Becomes difficult to operate.

Never try to fix the door yourself. Visit www.evo-doors.com to find an Authorized service technician in your area.
